FOUR NORWICH PEOPLE KILLED IN AUTO COLLISION ON ROUTE 1

Forced by a rapidly approaching automobile to choose between a head-on collision with a car coming from the west on his right, Miss Mary G. Ward, assistant town clerk of Norwich, picked out the latter course Saturday afternoon on the Watch Hill road.

The machine which she was trying to avoid was a Franklin limousine driven by George Davidson, president of the Federal Fuel Co. of Westley, it is understood that a warrant has been issued for his arrest on the charge of reckless driving.

Miss Ward, who had with her her mother, Mrs. William T. Ward of 191 West Thames street, her sister-in-law, Mrs. William P. Ward, 24 Spruce Garden avenue and her niece, Evelyn Ward, 7 and Dorothy Ward, 2, was on her way to Pleasant View under care of the latter course Saturday afternoon on the Watch Hill road.

The driver of the automobile near which she was standing, the driver of the trolley car going in the same direction, when some distance ahead he observed a man standing in the highway, as if waiting to take the trolley. The automobile was brought to a standstill. The man in the highway then stepped back on the sidewalk and as the auto driver concluding he would remain there until the trolley had passed, started the machine. Just at this moment the man again made an attempt to cross the street, when he was struck and knocked down.

The driver of the automobile who is a very cautious man at the wheel, having run a car for years without an accident, was not at all prepared for the collision. He was driving at a speed when it pulled out to its left to avoid the trolley car. The driver lost control and the Davidson car shot to his extreme left of the road, directly into the path of the Davidson car coming from the opposite direction.

Crowded into the gutter and with a head-on collision starting her in the face, Mrs. Ward made every effort to stop and at the same time swerved her car off to the right where it mounted the bank and struck the tree.

The force of the blow swung the rear of her car around and the skidding Davidson car locked into it and both slid off the road and into the ditch. The driver of the Davidson car was uninjured, according to witnesses, the Davidson car was traveling at a dangerous rate of speed when it pulled out to its left to avoid the trolley car. The driver lost control and the Davidson car shot to his extreme left of the road, directly into the path of the Davidson car coming from the opposite direction.

Crowded into the gutter and with a head-on collision starting her in the face, Mrs. Ward made every effort to stop and at the same time swerved her car off to the right where it mounted the bank and struck the tree.

Her mother is severely bruised and cut about the head and legs and her sister-in-law has severe bruises and is suffering from shock. Dorothy Ward was severely injured and her head was badly cut about the neck, face ears and tongue by flying glass. It is also feared she may have internal injuries.

The Ward coupe is an absolute wreck from its smash against the tree, but the Davidson limousine got off with comparatively slight damages to its front end.

Witnesses of the accident promptly commented on Mrs. Ward for the way she handled the sudden emergency that came upon her, as a head-on collision with a car coming from the west, a fatal injury to some of the occupants of both cars.

Man Hit at Norwich Town Saturday noon on West Town street a man who was reported to be a spinster in one of the up-town mills deliberately crossed the street from an approaching automobile, near which is known as Adams Tavern. The driver of the automobile had passed the trolley car going in the same direction, when some distance ahead he observed a man standing in the highway, as if waiting to take the trolley. The automobile was brought to a standstill. As a citizen is concerned, he is an orphan, a vagabond in-pleasant condition of mind. He said to see an orphan boy or girl growing up without the tender care of mother and father, while most of us have enjoyed a good home with parental affection, a mother who loved us with a deathless affection, and a father who would do anything to help us.

FOR CIVIL ENGINEERING POSITION IN PERU

Charles L. Babcock, of Norwich, who recently graduated from the Worcester Polytechnic Institute called Saturday for Peru, South America.

Mr. Babcock, who is the son of the late C. D. Babcock, of Jewett City, was graduated from the 'Norwich' Free Academy with the class of 1918. After graduation he was employed for two years by the Connecticut State Highway commission, being engaged in surveying and acting as inspector on various road jobs in and around eastern Connecticut.

He was the inspector in charge of the concrete approaches to the Thames River bridge also a section of the new road between Hartford and New London which is now practically completed.

Throughout this two years of engineering experience the desire to obtain a college education grew until in 1918 he was admitted to the Worcester Polytechnic Institute. After completion of the four years' course in civil engineering he received the Bachelor of Science degree on June 1, 1922.

He is a safe load for such trucks, particularly when the owners have made an effort to strengthen certain vital parts to meet the increased strain.

In order to overcome this problem, the department desires the organizations mentioned to furnish a minimum size or weight for the different parts of a truck of a given capacity, similar to the restrictions placed upon the parts of elevators and hoists.

The department's move in this direction is a great disappointment to local fans, and rightly so, as a fast contest was certain. This is the second time that the game between these two teams has been postponed because of weather. Man failed to do his share in the matter.

Catalpa trees about the village are being cut down. Mr. and Mrs. Henry Meyer of Norwich Avenue have moved into the cottage on Mannechock Avenue which they recently purchased from Mr. and Mrs. Slichter. Mr. and Mrs. Slichter are now occupying the attractive new residence at Mannechock.

Under the auspices of the Deep-In class of the First Congregational Sunday school a successful cafeteria supper was held Friday evening in the chapel. The good attendance that patronized the supper vouches for the good things at individual tables arranged about the chapel and the excellent service.

Between 8:30 and 10 o'clock Saturday morning the house on Wauwauk Hill, owned by Charles Palmer, place was totally destroyed by fire as the result of a defective chimney. A call was sent to the Yantic fire company, which responded in a very short time. The burning structure had gained much headway when the firemen were so slow to arrive. The fire was extinguished by the firemen who were so slow to arrive. The fire was extinguished by the firemen who were so slow to arrive.

Mr. and Mrs. Lewis Huntington Hyde, with her son Lewis and daughter, Miss Lucy Hyde of Winchester, Va., arrived in Norwich Saturday to pass the next few weeks at the Hyde home on Washington street. The property is owned by Mr. Lindbergh of Mt. Holyoke college, South Hadley, Mass. came Friday for a visit of two weeks at her home. Miss Hyde had as her guest over the week, and Miss Florence Ford, also a member of the faculty at Mt. Holyoke college.

WILD IRIS. I wandered down an azure afternoon When skies were cloudless though the War-bill ways were hazy; When the winds, the whole world seemed alive, the golden meadows of June, And I, too, to longer barren, joyed to raise Her verdant arms aloft as though in Seeking the infinite giver of the boon.

I paused at last where sweet a little stream Gently beseeched me, my fond fancy caught By flowers un-springing from the Wild iris graceful, fragile as a dream; And gazing on its slender spires I looked into the blue eyes of my —Elizabeth Scollard, in New York Herald.
